America First
Understanding the Trump Doctrine
by Danny Toma

In recent memory, American foreign policy has concentrated on the “foreign,” to the neglect of the “American” and the “policy.” The promise of a foreign policy that would put “America First” was one of the reasons for the success of the

Trump campaign. But what does putting America first actually look like in terms of our relations with the nearly two hundred countries around the globe? This audiobook shows where America’s interests lie, and just as important, where they do not.
